These indices include all papers published in *Lubrication Engineering* in 1973. The volume number, (issue number), and page are listed in order. Single copies may be ordered from ASLE Publications, 838 Busse Highway, Park Ridge, Illinois 60068. Cost is $1.50 per copy, plus $1.00 per copy to foreign address, 50¢ domestic. Prepayment is required on all orders under $5.00. Orders over this amount that are not prepaid will be billed $1.00 additional for handling.

# TITLE INDEX FOR 1973

*Aerospace Cryogenic Static Seals*, by C. M. Daniels 29 ( 4) 157
*The Application of Mechanical End Face Seals for Hot Water Service*, by J. J. Trytek . . . . . 29 ( 1) 17
*The Assessment of Recently Developed Lubricants for Rolling Elements*, by D. Scott and J. Blackwell . . 29 ( 3) 99
*Birotational Seal Designs*, by E. Douglas Taylor . . 29 (10) 454
*A Chart for Recording and Analyzing Factors Influencing Coolant Life*, by E. L. Kane, Jr. . . . . 29 ( 9) 391
*A Comparison of Hydraulic Fluid Characterizations in Two Evaluation Systems*, by F. C. Brooks . . . . 29 ( 8) 347
*Corrosion and Solid Film Lubricants*, by M. K. Gabel 29 (10) 442
*Design of Lubricant Blending, Storage, and Distribution Facilities in a New Plant*, by R. H. Pickens and T. W. Strouble . . . . . 29 ( 2) 52
*Development of Solid Lubricant Compact Bearings for the Supersonic Transport*, by L. C. Lipp, J. W. Van Wyk, and F. J. Williams . . . . . 29 ( 3) 118
*The Disposal of Metal Cutting Fluids*, by E. O. Bennett . . . . . 29 ( 7) 300
*The Evaluation of the Air Entraining Tendency of Fluids*, by H. H. Rowand, Jr., R. J. Patula, and L. B. Sargent, Jr. . . . . 29 (11) 491
*Evaluation of the Effectiveness of Cutting Fluids for Industry*, by N. Zlatin and J. Christopher . . . . . 29 ( 9) 402
*Evaluation of Materials for Sliding at 600 F-1,800 F in Air*, by E. F. Finkin, S. J. Calabrese, and M. B. Peterson . . . . . 29 ( 5) 197
*The Evaporation of Various Lubricant Fluids in Vacuum*, by D. B. Hamilton and J. S. Ogden . . . . . 29 ( 5) 189
*Fretting Corrosion of Steel—How to Recognize and Stop It*, by Douglas Godfrey . . . . . 29 ( 2) 43
*Friction Adhesion Under Metal-Cutting Conditions*, by G. W. Rowe and E. F. Smart . . . . . 29 ( 1) 12
*High Speed Oscillating Tests of Lubricating Composites*, by Peter Martin, Jr. and G. P. Murphy . . . . 29 (11) 484
*How to Select Shaft Seal Materials*, by Ola Ostmo . 29 ( 6) 240
*In-Field Repair of Shafts to Reduce Downtime*, by M. W. Washo and Anthony Serafine . . . . . 29 (10) 439
*Integrated Pollution Control in a New Plant*, by H. R. Hockenberry and J. E. Lieser . . . . . 29 ( 1) 7
*Investigating Automotive Gear Lubricant Copper Corrosivity*, by M. E. Le Pera and J. V. Shimek . . 29 (12) 546
*Laboratory Evaluation and Control of Metalworking Fluids*, by M. D. Smith and J. E. Lieser . . . . . 29 ( 7) 315
*A Laboratory Screening Test to Evaluate the Cutting Performance of Cutting Fluids*, by H. Henschen . . 29 ( 4) 151
*Large Industrial Circulating Oil Systems—Cleaning and Maintenance*, by F. S. Peterson . . . . . 29 (12) 534
*Letter from Europe 73/1*, by G. Salomon . . . . . 29 ( 7) 288
*LFW-1 Evaluation of Micro-Quantities of Fluid Lubricants*, by M. N. Gardos and J. R. Jones . . . . . 29 ( 9) 396
*Lubricant Testing as an Aid to Bearing Damage Analysis*, by J. L. Berg and J. E. Lieser . . . . . 29 (12) 539
*Mating Materials and Environment Combinations for Specific- and Clearance-Type Seals*, by M. L. Ruthenberg . . . . . 29 ( 2) 58
*Microcorrosion Studies with Functional Fluids*, by E. E. Klaus and E. J. Tewksbury . . . . . 29 ( 5) 205
*Migratory Internal Lubrication of Thermoplastic Resins*, by Barry Arkles and J. Theberge . . . . . 29 (12) 552
*Performance Evaluation of Cutting Fluids Using a Laboratory Machine Tool*, by H. J. Bezer and P. D. Oates . . . . . 29 ( 8) 336
*Recent Developments on Non-Contacting Face Seals*, by J. F. Gardner . . . . . 29 ( 9) 406
*Requirements for Sealing Liquefied Petroleum Gas*, by H. B. Hummer . . . . . 29 ( 7) 308
*Rust-Inhibited Nonreactive Perfluorinated Polymer Greases*, by Joseph Messina . . . . . 29 (10) 449
*A Study on Some Metal-Base Self-Lubricating Composites Containing Tungsten Disulfide*, by Yuko Tsuya, H. Shimura, and M. Matsunaga . . . . . 29 (11) 498
*Tribology Before Columbus*, by D. Dowson . . . . . 29 ( 6) 245
*Wave Seals (A Solution to the Hydrodynamic Compromise)*, by R. V. Brink and L. A. Horve . . . . . 29 ( 6) 265
*Wear of Grey Cast Iron Under Unlubricated Sliding Conditions*, by T. S. Eyre and F. Wilson . . . . . 29 ( 2) 65
*Wear Rates of Impregnated Carbons Sealing Warm Water*, by R. R. Paxton and E. W. Strugala . . . . 29 ( 8) 341
